
Freedom of Information Act Request received by Enemalta plc on 31st December 2017

Request Reference: 34317051710

Received from: Mr Jacob Borg (Times of Malta)

Request: We would like to know who was on the Enemalta selection committee, which selected the Electrogas consortium as the preferred bidder for the construction of a gas-fired plant.

Reply:

The international process for the selection of a private contractor for a long-term power purchase agreement and a gas supply agreement involved different stages to identify the most sustainable, technically-compliant offer from 19 different international bidders. This rigorous process was an essential element in the successful attainment of Enemalta's long-term plan to transform the country's energy mix, consolidate the capacity and reliability of the country's electricity sources, cut electricity tariffs by 25% and end the use of several HFO-fired power plants to drastically reduce air pollution in the Maltese Islands.

The persons involved in the various teams of evaluation required in the indicated international process are Anita Aloisio, Kurt Bartolo, Ad Braam, Maria Buckie, Marco Burlo, Marco Buttigieg, Piero Chelucci, Marcel Cremers, Kirsten Cutajar Miller, Melvyn Darmanin, John Deane, Raymond Farrugia, Marvin Gaerty, David Galea, George Gregory, Henk Koetzier, Sven Lataire, Tom Leonard, Maria Micallef, Godwin Sant, Jonathan Scerri, April Tinio, **Brian Tonna**, Joe Vella Bonnici and Ranier Xuereb.
